

Prescott Point Phase II
Freedom Trail Drive, Middletown RI
9/18/2023

Trash and Litter Control Plan

The outline for the handling and disposal of refuse generated by the development is as follows:

1. The Owner will provide small trash receptacles as shown on the plans entitled "Prescott Point, West Main Road, A.P. 55 Lot 1A (Portsmouth), A.P. 104 Lot 7 (Middletown) Lot 402B, Proposed Layout Plan", sheets C-11 and C-12, last revised 9/14/23 by Northeast Engineers & Consultants, Inc. A typical receptacle design has been provided.
2. Trash collected in the smaller external receptacles will be transferred to a centralized receptacle daily or as frequently as necessary by the Owner.
3. The Owner will provide internal refuse containers within the structure as necessary. Cleaning staff will transfer collected refuse into the centralized trash receptacle as necessary.
4. The Owner will collect and dispose of all litter encountered on site into the centralized receptacle as part of regular groundskeeping operations.
5. The Owner will contract an outside service to remove and dispose of the waste within the centralized trash receptacle on a regular schedule. The schedule is anticipated to be weekly, but will be adjusted in accordance with waste generation.
6. All refuse removed from site will be disposed of at a licensed facility.
