

1400 West Main Road

Trash and Litter Control Plan

1. The Owner shall provide one trash receptacle/dumpster within a screened enclosure for each building as shown on the Site Plans.
2. The Owner shall provide an additional litter receptacle at each main entry of each building. Owner shall ensure each litter receptacle is emptied into dumpster as needed.
3. The Owner shall collect litter throughout the site as part of regular groundskeeping maintenance.
4. The Owner shall contract a service to remove and dispose of the Site waste on a regular schedule, to be determined based on site needs.
5. All refuse collected will be disposed at a licensed facility.
