Re: Comprehensive Plan 5-Year Implementation Report

In accordance with RIGL § 45-22.2-12 municipalities must file a 5-year informational report with the state Division of Planning on the status of their comprehensive plan's implementation program. The regulations do not specify how this report should be presented, but the Division of Planning developed a reporting template for municipalities to use. The attached draft lists the accomplishments and impediments for all elements in Middletown's 2015 Comprehensive Plan using one-paragraph per element approach. The Planning Board should review the attached draft, provide any feedback, and take a vote to submit the report.
